ASKS POWER TO OPERATE ROADS

President Wilson Before Joint Session of Congress Outlining Steps Necessary

TO PROTECT RAILROAD STOCK

Also Requests Measures to Safeguard Shippers and Travelers—Guaranteed Income

(By United Press.)

Washington, Jan. 4.—President Wilson today called upon Congress to give him full and unreserved power to conduct the federal operation of the country's railroads. Before a joint session of the house and senate, the president outlined the steps necessary to success to Director General McAdoo, administrator of the roads. He explained the action was necessary to secure the complete mobilization of the whole resources of America by as rapid and effective means as can be found.

"Private interest," he said, "must for the present give way to public necessity." The president asked necessary means for protecting the interest of railroad stock; measures to protect and to safeguard shippers and travelers; compensation based on the average net railroad income of three years ending June 30, 1917.

He added that "it is probably too much to expect that even under the unified railroad administration, sufficient economy can be effected to make it possible to add to their equipment and extend their operative facilities as much as the present extraordinary demands will render desirable without resorting to the national treasury for funds," but he asked for no unnecessary appropriations, stating that Director General McAdoo will advise with the proper committee on this point.

The president thought it wise to state as much to quiet any possible unrest which might result from the sweeping action of the government.

"It is of the utmost consequence to the government itself," he said, "that all be stabilized and co-ordinated with the financial operation of the government. 'No borrowing should run athwart the borrowing of the federal treasury and no fundamental industrial values should be impaired.'"

"Ten or eleven billion dollars invested for securities by many thousands of small investors as well as financial institutions at all times constitute the vital part of the structure of credit and by which the solidity of its structure may be maintained."

Immediately, representatives of the commerce committee introduced a resolution to carry out the president's recommendations.

NEW CASE OF DIPHTHERIA

Lavonne Lucas, Daughter of John Lucas, Is Sick

Another case of diphtheria has developed. It is that of Lavonne Lucas, daughter of Mr. and Mrs. John Lucas, northwest of the city. The report on the culture of her throat was received last night and the home was immediately put in quarantine. Mrs. Lucas is also ill and although it is possible that her sickness is not diphtheria, her culture has been sent to Indianapolis for examination. Aside from these cases, the physicians believe the disease is entirely wiped out.

LIBERTY LOAN FEB. 15

(By United Press.)

Washington, Jan. 4.—The third Liberty Loan campaign will be opened February 15, it was announced today. Secretary of the Treasury McAdoo will give all of his time to railroad work until February first when he will direct the campaign.

RUSHVILLE STILL COALESS

No Dealers Get Fuel, But Weather Moderates Somewhat

Rushville was still coaleless today, but the weather man was not conspiring so badly to keep the cold wave in vogue. The weather was moderating more today than it has for some time, the mercury going up to twenty-six degrees above zero this afternoon, which is the highest mark reached for several days. Still warmer weather is predicted for tonight and tomorrow, with a possibility of snow. The low mark on the government thermometer last night was ten above zero and at eight o'clock the mercury had risen to fourteen above.

SCOTCHMAN TO SPEAK TO MASONS ON BURNS

John Rutledge, Past Master of Local Order, Was Born in Scotland, Birthplace of Poet

CUSTOM TO HONOR POET

Phoenix Lodge, No. 62, Free and Accepted Masons will commemorate the 159th anniversary of the birth of Robert Burns, the great Scotch poet and Mason, with appropriate exercises at the stated meeting to be held in the Masonic Temple on Tuesday night, January 8th.

John Rutledge, a past master of the local lodge, has been secured to address the lodge on the life of the poet. Mr. Rutledge was born in Ayr, Scotland, also the birthplace of Burns, and is thus familiar with many of the historical places mentioned in the poems and other writings of this renowned poet.

It has long been the established custom for Masonic lodges to pay tribute to the memory of the Scotch bard on the anniversary of his birth and the local lodge is expecting a large attendance of its members on this occasion.

FIRE BREAKS OUT IN BARRED ZONE

Threatens to do Extensive Damage on Hoboken Waterfront When Discovered in Plant

MUNITIONS ARE ENDANGERED

(By United Press.)

Hoboken, N. J., Jan. 3.—Fire that broke out in the Gatti-McQuade plant here early today destroyed property amounting to a million dollars in the ware houses. The plants making munitions for the U. S. including the Remington Iron Company were endangered.

Hoboken, N. J., January 4.—Fire which threatened part of the waterfront which is within government control broke out today. The fire was discovered in a six-story building occupied by the Gatti-McQuade Company, mill supplies manufacturers, in the barred zone. That structure appeared to be doomed.

All the fire apparatus in Hoboken was called out. A munitions factory was near.

United States soldiers were placed on guard around the area. The burning building occupied nearly a block. Wind carried the sparks as far as the water's edge where munitions ships are tied up.

Two hours after the fire started the flames continued to make headway. They had spread to a number of other structures and civilians were called on to aid the firemen. More details of soldiers were summoned. Owing to the cold weather the water pressure was poor.

Mrs. Charles Caron spent the day in Indianapolis with friends.

FOURTEEN CALLED FOR EXAMINATION

Army Selection Board Sends Notices to More Registrants to Appear Before Physician

Now in Class 2
William W. McMichael, Milroy.
Joseph O. Hankins, Rushville.
Darley R. Wendling, Manilla.
Firman B. Tarplee, New Salem.
Paul S. Green, Rushville.
William C. Martin, Manilla.

Fourteen more registrants have been called for physical examination by the county army selection board to appear before Dr. W. S. Coleman, physician member of the board next Tuesday.

The net result of the examination of nineteen registrants last Monday was four men ready for induction into the army. The others were either rejected, appealed their cases to the medical advisory board, or were sent to the advisory board by Dr. Coleman for confirmation of his decision in regard to their physical fitness.

Fifty-four more were classified by the board yesterday, counting the six who were placed in class one and their arrest ordered for failure to return their questionnaires. The three others who were ordered to be placed under arrest yesterday had previously been placed in class one by the board.

At the same time these three were put in class one. Edward S. Combs was dealt with in the same way because he had not abided by the draft regulation providing questionnaires shall be returned in seven days after they are received. He got in communication with the board, however, returned his questionnaire filled out and explained the delay. His questionnaire, however, did not change his original classification.

Counted in the registrants classified yesterday was Lewis Lytle of Chicago, son of Mr. and Mrs. T. W. Lytle of this city, who registered here. He was examined last week while home for the holidays, by permission of the board, which has authority to allow physical fitness so that his classification in class one will not stand.

Up to this morning 493 cases had been acted on by the board. Of this number 141 have been placed in class one. Fifty-four were classified yesterday, nineteen being placed in class one, seven in class two, three in class three, twenty-two in class four and three in class five.

CONGREGATIONS TO WRITE TO WILSON

Vote at Week-of-Prayer Services to Urge His Support of Prohibition Measure

TO SHOW VALUE AS WAR MOVE

The Rev. J. T. Aikin Delivers Sermon Thursday Night—Closing Meeting at U. P. Church

A unanimous vote was voiced by the congregation at the week-of-prayer service held at the Christian church last evening favoring sending a letter to President Wilson urging him to use his influence for the prohibition of the manufacture of beer and wine and commending the manufacture of whiskey.

The arguments of conservation were presented in the communication read from the Anti-Saloon league, citing the amount of food, fuel by manufacturing, transportation and man power that could be conserved by prohibiting the manufacture of liquors. The Rev. D. Ira Lambert as president of the ministerial association and the Rev. C. J. Bunnell as secretary will sign their names to the letter telling of the action of the congregations of the city. The communication came to the ministerial association to be voted on, but the members of the association put it before the meeting, thinking it would have more effect.

The Rev. John T. Aikin of the United Presbyterian church delivered the address last evening, giving an interesting presentation of the facts learned from Paul's letter to the Ephesians; the Rev. D. Ira Lambert presided over the meeting; the Rev. C. S. Black read the scripture reference; the Rev. C. J. Bunnell led in prayer. Capt. Dove of the Volunteers of America was present at the meeting and led in prayer. He will make a short talk at this evening's service which will be held at the United Presbyterian church. The Rev. C. S. Black of the St. Paul's M. E. church will preach this evening, when the last service of the week's series will be held. Last night the crowd was the best of any of the meetings held during the year.

After reading Paul's prayer for the people of Ephesus, the Rev. Mr. Aikin commented on the incidents prior to the time of the prayer, speaking as follows: "Paul loved the people of Ephesus. Here we are given the story of his farewell visit. He went on this journey then to Rome as a prisoner and his heart went out to the Christians as Ephesus. This prayer was offered for their spiritual enrichment. Paul thinks of the saints as one great family, some of the members of which are in heaven and some on earth. This was not a chance prayer but it was Paul's business and purpose to pray for the people at Ephesus. How well it would be for us to make it our purpose and business to pray as Paul did and to pray for ourselves and the church."

"There are three centers for the petition," the speaker continued, "first he appeals to the Holy Ghost, to the Son, and then to the Father. He appeals to the Holy Ghost to grant the power of the spirit in the hearts of the believers at Ephesus. He prays that they may be filled with this power and strength. Then, too, he petitions to the Son that the Christ may dwell in the hearts of the people by faith. As in the parable of the vine and the branches, so he pleads that the life of Christ may be interwoven in their lives. The third petition is that in all the fullness of God their hearts may be filled, then can we see the expression of God in person's lives, when their hearts are flooded with His spirit," continued the Rev. Mr. Aikin.

The minister continued his theme by showing the great need for this enrichment. In this way he showed

BIG CLAIM IS COMPROMISED

One Against Jacob Gahimer Estate Dismissed—Other Court News

The claim of Mary A. Gahimer against the estate of Jacob Gahimer for \$973.50 has been compromised for \$300 and dismissed in the circuit court. Lately two judgments have been returned against William Emsweller, both due to his default. One of them was in favor of W. S. Oneal et al. for \$104.62 on principal and interest on a note and \$10.26 attorney fees. The other was in favor of Lieu A. Oneal for \$256.52 principal and interest and \$22.85 attorneys' fees. The suit of Theodore Sampson et al. against Charles H. Newsom for quiet title and possession has been dismissed by the plaintiff and the costs paid.

A. F. STEWART GOES INTO ARMY Y. M. C. A.

Gives up Position as Head of Latin Department at Monmouth College to Enlist in War Work

FORMER PRINCIPAL HERE

Prof. A. F. Stewart, former principal of the local high school, will probably go to France in the near future in the Y. M. C. A. service. Prof. Stewart has been examined and accepted for the service by the Chicago Y. M. C. A. office and recommended to the New York office. Although he has not received his appointment from the latter place, it is said that the recommendations from the Chicago branch are never turned down so it is very probable that he will be accepted.

Prof. Stewart has resigned his position in Monmouth College at Monmouth, Ill., where he has been head of the Latin department for some time and has had a very successful career as a college professor. Although he is not sure as to where he will be sent, he believes, and the Chicago authorities also thought, that he would be sent to France. If he is not assigned to France, he will work in the army camps in this country. Prof. Stewart made a short visit in this city several days ago.

USED THE MAILS TO FLEECE INVENTORS

Lawrence Bundy of Knightstown is Held in Indianapolis on Federal Indictment

SUCCESSFUL SCHEME IS USED

Lawrence Bundy, of Knightstown, owner of a hand printing press, is in the Marion county jail in Indianapolis awaiting arraignment on a federal indictment accusing him of having used the mails to fleece inventors out of money.

Bundy, according to the indictment, was "the whole thing," of at least three companies by which he professed "we" get the inventor in direct touch with manufacturers, capitalists and prospective patent buyers.

His ideas of making money, it is alleged, were perhaps only exceeded by his use of language, for in writing inventors he used this language, according to a letter incorporated in the indictment against him: " * * * of being skinned out of a big part of the selling price by some unprincipled shary."

HELPS MORE THAN WINNING BATTLE

Dramatic Turn of Events in Russia Affects Allied Cause—May Mean Recognition

Copenhagen, Jan. 4.—A dispatch from Tokio stating that Japan had decided to resume the fullest diplomatic relations with Russia was sent today.

Not to Transfer Negotiations

Berlin (via London), Jan. 4.—Chancellor Hertling announced that Foreign Minister Kuehlmann had been instructed to reject Russian proposals for the transfer of peace negotiations to neutral soil.

Ukrania Gets Independence

Petrograd, Jan. 4.—Decision to acknowledge the independence of Ukrania was reached by the Bolshevik government today. The decision to acknowledge Ukrainian independence is a victory for the Cossack Rebels.

Amsterdam, Jan. 4.—Proceedings of the main Reichstag committee session at Berlin, reaching here today showed that the central party is supporting Germany's contention, that Poland, Lithuania and Courland are separate states of Russia. The German government position as to the non-withdrawal of troops from sections of the country, is therefore presumably supported by the majority in the main committee. Support of the Russian contention that Germany withdraw troops can not be expressed because the military occupation was given by Socialists at the committee meeting.

London, Jan. 4.—The dramatic turn of events in Russia today will in all probability affect the allied cause more than the winning of a great battle. It may mean first of all recognition by the allies of the Russian Bolshevik government. Certainly it seems today probably to result in another joint effort by the allies to aid Russia in working out her own destiny.

Dispatches from Germany today said the central powers delegates are all returning to Brest-Litovsk and coupled with this information was the report that more moderate terms were to be offered the Russians.

Just what these new concessions were to be was not intimated.

As observers saw the situation today the effect of the proof offered of Germany's annexation plans will be psychological, political and moral—not only in Russia and Germany, but particularly in America and neutral nations.

The negotiations have proved that this effort at commercial penetration and economic domination is Germany's particular aim in Russia. The revelation must strengthen the cause of the allies more than a victory on the battlefield.

A Russia dominated by Germany dwarfed even the Berlin-to-Bagdad scheme in its badness.

ANTILLES SINKING CAUSE

Admiral W. B. Fletcher Relieved as Head of Navy Convoy System

(By United Press.)

Washington, Jan. 4.—Admiral W. B. Fletcher, formerly in charge of the navy convoy system abroad, has been relieved and ordered home as a direct outgrowth of the torpedoing of the American transport Antilles. This fact came out today following charges of Rep. Britton of Illinois that the Antilles was sunk through navy negligence.

Rushville Evidence For Rushville People

The Statements of Rushville Residents Are Surely More Reliable Than Those of Utter Strangers

Home testimony is real proof. Public statements of Rushville people carry real weight.

What a friend or neighbor says compels respect.

The word of one whose home is far away invites your doubts.

Here's a Rushville man's statement.

And it's for Rushville people's benefit.

Such evidence is convincing.

That's the end of proof that backs Doan's Kidney Pills.

Samuel A. Brown, 206 Pearl St., says: "I had a severe attack of backache and it became worse every day. Finally, the trouble was so bad I could hardly raise my foot above the ground. When I stooped, I thought my back would break. I used Doan's Kidney Pills and was surprised at the prompt way in which they stopped the trouble. In a few days, I was free from pain."

Rail Employee Still On Job

Couldn't Have Stuck It Out if It Hadn't Been for Tanlac

"I've been with the L. & N. here for seven years but I doubt if I could have stuck it out if it hadn't been for Tanlac," said James Nun, 15 Barker Avenue, Howell, Evansville, Ind. Mr. Nun is in charge of the pump house at Howell for the L. & N. Railroad Company.

"My health was getting pretty poor and at times I thought I'd have to lay off for good," Mr. Nun continued. "I didn't have much appetite at all and the little food I did eat distressed me. Gas used to form in my stomach and caused a pounding and thumping feeling."

"I was weak, too, and at times it got so that I was hardly able to shovel coal in the furnace."

"I slept very little. I'd just toss and roll about the bed most of the night."

"Everybody in town can see the change in me since I've been taking Tanlac. I've gained thirteen pounds and I'm still taking on flesh. I eat big meals now and enjoy them."

"I sleep good every night too. Even the rumbling of the trains in my neighborhood doesn't keep me from sleeping."

"I feel better than I have for twenty-five years and I think Tanlac is great as a health builder."

If you are not feeling right why don't you take Tanlac and improve your health? You can get Tanlac at F. E. Wolcott's drug store or any other good drug store.—(Adv.)

PLANS BEING MADE FOR THE DRY CONVENTION

Main Question to Come up at April Meeting is Concerning Joining New Organization

IN INDIANAPOLIS APRIL 12

(By United Press.)

Indianapolis, Ind., Jan. 4.—Arrangements are being made by dry leaders in Indiana for the state convention which will be held in this city on April 12, the date when the new prohibition law is scheduled to take effect. The convention will be under the direction of the state central committee of the prohibition party.

One of the main issues which will be considered at the meeting is whether or not the Indiana prohibitionists will ally themselves with the new national party which is now being formed. Sentiment is divided on the question but it is probable the convention will vote to go with the new organization.

The new party is made up of former socialists, prohibitionists, and some progressives. The socialists and progressive elements which are to line up with the new party, will hold meetings here this spring it was stated to form an organization.

Indianapolis, Ind., Jan. 4.—Field agents of the department of internal revenue, opened offices throughout Indiana today to give free advice to the 60,000 persons who must pay income tax this year. The agents, working under Collector Peter Kruyer, will work through the state until the latter part of February. They will remain several days in each place. The following schedule for the field men was announced today:

Jan. 3 to 19—Decatur, Auburn, Goshen, Elkhart, Portland, Warsaw, Michigan City, LaPorte, Albion, Bluffton, Columbia City, Lagrange and South Bend.

Jan. 3 to 31—Ft. Wayne, Gary, Hammond, Whiting.

Jan. 21 to 31—Angola, Knox, Plymouth, Rochester, Rensselaer, Winamac, Monticello, Wabash, Hartford City, Tipton, Fowler, Noblesville, Kentland.

Feb. 2 to 16—Peru, Anderson, Logansport, Marion, Kokomo, Huntington, Valparaiso, Muncie, Richmond, Rushville, Seymour, Bedford, Bloomington, Columbus, Shelbyville, Franklin, Martinsville.

Feb. 18 to 28—Winchester, Newcastle, Connersville, Brookville, Greensburg, Liberty, Osgood, Rising Sun, Lawrenceburg, Vevay, Madison, North Vernon, Nashville, Greenfield, Danville.

Kruyer advised all persons with incomes of more than \$1,000 to get to work immediately figuring out what they are supposed to pay so that they will have their figures ready when the income tax expert arrives.

funds for field service pillows for the United States army. Popular patriotic songs written by Chaplain Houston of the Rainbow division now in France will be sung by the trio and sold in the audience. The profits go to the service pillows fund. The organization is approved by the Indianapolis Chamber of Commerce. It originated as a relief organization for the 151st artillery, now with the Rainbow division, and has been broadened to supply pillows for the whole army.

Fatigue Nearly Overcomes Woman

"Bringing up several children in the right way and cares of home brought me to the verge of nervous prostration," says a well known woman. "Fearing that I might become ill and have to give up housework and the care of my little ones, created a nightmare that was ever my affliction to one of my neighbors before me. I happened to mention and she advised me to procure some Phosphated Iron. A day or two later when I was feeling unusually miserable I sent my daughter to the drug store for a box of the capsules and after ten day's treatment I felt like a different person altogether. I sleep well at night, something I hadn't done in months before; my appetite is good and in fact what formerly seemed like mountains of work in my home is now more like play. An aunt of mine living over East has been taking Phosphated Iron with equally gratifying results."

[Phosphated Iron is put up in capsules only. In this locality it can be obtained at PITMAN & WILSON and leading Druggists Everywhere—Rushville, Ind. (Adv.)]

Enforcement of Food Act

Wholesalers of Indianapolis and vicinity who are licensed under the federal food control law, have been directed by Dr. Harry E. Barnard, federal food administrator, to refrain hereafter from supplying merchandise to Chris Baumbach, a grocer at 26th street and Capitol Avenue. Baumbach is alleged to have "profiteered" in violation of the Lever food control law, by agents of the department of justice who reported to Dr. Barnard. The effect of this action is to put Baumbach out of business.

This is the first instance of the enforcement of the food control law as it applies to profiteering. Baumbach is said to have purchased canned goods at 8 cents per can and retailed them at 15 cents, which was held contrary to that section of the statute which fixes profits at a reasonable margin.

Baumbach was not licensed, his sales totalling less than \$100,000 per year and not selling to hotels nor restaurants. However he is reached as effectively through the food administration's control of wholesaling as if he were directly answerable for the observance of the law.

In taking radical action against Baumbach the federal administration takes the position, Dr. Barnard says, that sufficient notice has been given the food regulations. It has been printed and preached publicly for months, he says, that merchan-

dise must be sold on a fair and reasonable margin of profit, without reference to increase in valuations that may have accrued from the date of purchase by retailers and the date of sale.

For the Small Investor

The plan of the government to raise funds through the sale of war savings certificate stamps is one of the most commendable plans yet instituted. The sale of liberty bonds was and is necessarily circumscribed because these bonds could not be issued in small denominations sufficient to include the small savings of the millions who handle only small means. With the savings stamps, however, all can have a hand in financing their government. Millions who felt themselves unable to spare the amount of a bond can contribute through this channel. And the fact that every penny invested in these stamps is so much saved and invested at a profit, should inspire in the American people a spirit of thrift and saving that has heretofore been totally foreign to our natures. The response should be universal.

It is rumored that Ex-Czar Nicholas of Russia has escaped from Siberia and his whereabouts is unknown. Kerensky also has faded from view. Lenin and Trotsky will probably soon join the disappearing procession. Such is the destiny of dictators in Russia.

Certain gentlemen in Congress who during the last session were extremely pugnacious in asserting their right to oppose all war measures, now are as meek as lambs. Can it be they have heard a voice from home?

MAKES GREAT EFFORT WITH THE SUBMARINE

Possible That Enemy is Organizing Submarine Warfare on Scale Hitherto Unknown

TO FURTHER PEACE PROJECT

(By United Press.)

London, Jan. 4.—Germany is making her greatest effort of the submarine war now in the hope of furthering her peace project. This official statement is permitted today in advance of the usual weekly official announcement as to the British shipment during the past week.

It is possible that Germany has organized her submarine warfare on an offensive scale hitherto unknown. The results of her concentrated drive are not yet available but they may show indications of a temporary success. British authorities, however, are certain nothing more can be achieved than this temporary success.

CHARGES HOOVER USURPED HIS POWER

Chairman Reed Accused Federal Food Administrator of Using More Authority Than He Has

WILSON APPROVES HIS REPLY

Washington, Jan. 4.—Usurpation of authority under the food law in fixing wheat prices was charged against Herbert Hoover, federal food administrator, by Chairman Reed at the senate inquiry.

"Did you not assure congress when the bill was pending that there was no authority to fix prices?" Chairman Reed asked.

"Everything has been done with the full approval of the president," answered Hoover.

"I consider the bill gives me authority to do as I have in the wheat matter even if it does not say so. We face a big emergency."

Herbert Hoover answered criticisms of his food administration when he testified before the senate sugar probe committee. High food prices he attributed partly to greatly increased per capita gold circulation and sudden conversion of thousands of men from producers to consumers.

Senator Reed, chairman of the committee, and violent critic of Hoover, turned over cross-examination to Senator Lodge when the hearing began.

Lodge questioned Hoover regarding whether or not the food administrator's statement on the shortage of sugar did not cause the price to go higher. Hoover denied that it had this effect.

MANY INSTITUTES ARE TO BE HELD

Practically Every Farmer in Rush County Will Have an Opportunity to Attend One

NEARLY ALL SET NEXT MONTH

Farmers in practically every locality in Rush county will have an opportunity to attend one or more of the farmer's institutes and corn shows to be held in the county during the next month. Dates have been set for the majority of the meetings but some of the plans are only in the making. One or more speakers from Purdue university will be at each of the institutes. The majority and perhaps all of them will be held in the schools of the localities.

January 10 is the date set for the first of the institutes, the one to be held in the Orange school house for the Orange township farmers. On the following day, January 11, an institute will be held at Moscow in the school building. The Milroy institute, the first for a number of years, will be held January 24 in the school and a week later, January 31 is the date set for institute at Carthage. The Mays meeting will be held February first. A meeting will be held in the near future to complete plans and set the date for the institute which will be held at New Salem in the near future and the Manilla farmers are also organizing plans for their institute, the date for which will be announced later.

With the Fingers! Says Corns Lift Out Without Any Pain

Sore corns, hard corns, soft corns or any kind of a corn can shortly be lifted right out with the fingers if you will apply directly upon the corn a few drops of freezone, says a Cincinnati authority.

It is claimed that at small cost one can get a quarter of an ounce of freezone at any drug store, which is sufficient to rid one's feet of every corn or callus without pain or soreness or the danger of infection.

This new drug is an ether compound, and while sticky, dries the moment it is applied and does not inflame or even irritate the surrounding tissue.

This announcement will interest many women here, for it is said that the present high-heel footwear is putting corns on practically every woman's feet.

A New Year's Greeting

This is the Season when our habit is to review the year that has just closed and to prepare for the New Year.

Strange conditions have surrounded us the past year and we face a future unusual and uncertain. At such a time every person should plan that he may render the most effective service to his country.

Loyal citizens everywhere will be called upon by our country's need, and the response of our people should be certain and generous as it has been to every appeal in the past.

Preparation now is essential. It is the part of prudence to save and conserve in every material way that we may do our share in aiding Rush County to discharge her full duty in this National Crisis.

May the Year 1918 be rich in blessings for all our people, is the wish of

SEES FOUNDATION FOR A VICTORY

House Mission Holds Out no Hope of War Ending in Two Years, However

MUST PREPARE TO THAT END

Political Elements Might Bring Quicker Peace—Much Depends on Shipping

Washington, Jan. 4.—Members of the House mission believe the United States and the allies can make a firm foundation for victory in 1918.

But they hold out no hope, so far as the military situation now appears, that the war will actually end in two years. Political elements may bring a quicker ending, they said, but experts declare the nations must proceed with a two or three year fight in mind and make their plans for even a longer struggle.

Much thought must be given to ways and means for increasing the allied shipping, the mission declares.

There is talk of getting additional allied shipping through pooling arrangement though it is doubtful that much can come from this source until U-boat losses decrease and shipping facilities increase.

U. S. forces must be dispatched to Europe "with the least possible delay incident to training and equipment," Col. House's mission to the allied countries has recommended to Secretary of State Lansing.

Speed and co-ordination in ship building are primary requisites. While unity of effort—military, naval and economic—between the United States and the allies is essential, according to the two other recommendations.

The recommendations mean that all the allies will hereafter work together in unity, that the period of training and equipment of American forces will doubtless be shortened if this can be accomplished with the shipping and other resources at hand.

The recommendations for co-ordination in the shipping program emphasized more strongly than ever the urgent appeal of the allies for more ships, more speed in building them and less bickering and attention to details.

Summary of Col. House's report shows that the special war mission succeeded in its purpose of reaching a definite working plan for the prosecution of the war.

TOOK IN \$1,500 YESTERDAY

Bert Conde Has Sold Most War Certificates to One Person—\$550 to Mrs. F. W. Ball

With the increased postage, the revenue stamps, the Thrift Stamps and War Certificates, business at the postoffice is "booming." Yesterday's receipts totalled about \$1,500, practically all of which was taken in in small amounts. The added lines of work are meaning new responsibilities and harder work for the postal authorities, mailing clerks and carriers, but they are sticking to it cheerfully knowing that Uncle Sam is prospering under the new rulings. Yesterday was one of the biggest days in the history of the local office and one of the busiest for the postoffice men.

To Bert Conde goes the credit for having made the biggest single sale of the war Certificates, that is to one person. Mrs. F. W. Ball has purchased \$550 worth of the stamps. The ruling is that not more than one hundred dollars worth may be purchased at any time so the stamps were bought at different times. At present, however, Mrs. Ball is holding more of the certificates than anyone in Rushville.

All of the carriers, city and rural route, carry the supplies for buying stamps and certificates and will sell them at any time. Any supply they do not have with them, they will order and supply later.

On February 9, the carrier-clerks examination will be given at the postoffice. The carriers and mailing clerks will take the examination. They are given when conditions make it necessary and cover the subjects of arithmetic, spelling, letter writing, and composition.

TEAM ENTERS GAME WITH A HANDICAP

Reed Out of Game and Several Others Sick with Boils to—Play at Shelbyville

FIFTEEN ROOTERS ARE GOING

The Rushville high school basketball team goes to meet Shelbyville tonight on the Shelbyville floor with a big handicap. Norman Reed, captain of the team, is out of the game having been sick with boils. Several members of the team have been infected with the boils at the same time that Reed was and as a result are not in the best of condition. Halbert Brown and Cyril Caron, although not in the best of health, are going to play on the team.

The locals have practiced hard all week and will endeavor to win in spite of the fact that the odds are strong against them. About fifteen rooters will accompany the team to Shelbyville tonight.

HEARS OF NEICE'S DEATH

Mrs. Belle Cosand has received word of the death of her niece, Mrs. Blaine McCoy of Anderson, at the home of her mother, Mrs. Rose in Indianapolis. Mr. McCoy was well known here, having living in Rushville at one time. Mrs. McCoy is survived by her husband and a young baby.

Never Put a Croupy Child to Bed Without Giving a Dose of **Foley's Honey and Tar**

Mothers know it stops croup because it cuts the thick choking mucus, clears the throat of phlegm, stops the hoarse metallic cough, eases the difficult breathing, then quiet sleep. Mrs. T. Neureuter, Eau Claire, Wis., writes: "Foley's Honey and Tar completely cured my boy of a very severe attack of croup. We know from experience that it is a wonderful remedy for coughs, colds, croup, whooping cough." F. B. Johnson.

Our Line of Defense

It is a moment of tense nerves—ready to slip out of the trench at the word of command—and at the enemy. Our men on the firing line are physically fit for military service because only about one man out of five was chosen to endure the hardships of this fearful war. But we must not be content with 20 per cent. in physical health of our American youth. We cannot afford to lose four men out of five because of physical unfitness. Such weaknesses can be cured. Many times the kidneys are to blame.

If the kidneys are clogged with toxic poisons you suffer from stiffness in the knees in the morning on arising, your joints seem "rusty," you may have rheumatic pains, pain in the back, stiff neck, headaches, sometimes swollen feet, or neuralgic pains—all due to uric acid or toxic poisons stored in the blood and which should be swept out.

Then procure at your nearest drug store Anuric (double strength). The cost is 60 cents. This Anuric drives the uric acid out.

Send Dr. Pierce, Invalids' Hotel, Buffalo, N. Y., 10c for trial package.

GOSHEN, IND.—"I have been using Anuric about four and one-half months, and am cured of rheumatism and constipation, after suffering about eight years. Anuric is the greatest blessing that ever was bestowed upon me. If anyone who is suffering would like to ask me any questions in regard to Anuric, I will gladly answer or do anything in my power to help suffering humanity."—ARTHUR J. Society

Thirty young men sat down to the banquet given in the basement of the Christian church last evening for the Sunday school class taught by Edward Frazee. An elegant two course chicken supper was served to the young men who were seated at a long, prettily decorated table. Following the service of the meal, Hubert Alexander acted as toastmaster and each of the boys responded on the program with a short talk, commenting on the work of the class and complimenting the committee in charge of the affair. The supper was given as the closing feature of a contest in which the boys have been engaged with another class of the Sunday school, in which they claim to be the winners. The committee arranging and serving the supper was composed of Mr. and Mrs. Herschell Daubenspeck, Isom Stevens, Mrs. Clawson, Mrs. Howard Carmichael, Miss Emma Blackledge and Mrs. Ed Frazee.

Miss Catherine Caron who is home from Ursuline College was the guest of honor at a delightful party given yesterday afternoon by Miss Norma O'Neal at her home in East Seventh street. The rooms in which the guests spent the afternoon were artistically decorated with clusters of holly and the national colors. The afternoon was spent in playing games and music. At the close of the afternoon the guests were served with a delicious two course luncheon in the dining room which was bright with decorations appropriate to the Christmas season. The guests were the Misses Mary Kinsley, Eloise Kelley, Florence Cooning, Margaret Kirk, Anna Reardon and Catherine Caron.

Mrs. Walter Hubbard and Mrs. Jack Knecht entertained the Thursday afternoon Bridge Club at the home of Mrs. Hubbard in West Second street yesterday afternoon. In addition to the eight members of the club, Mrs. Francis Moore of Chicago was a guest. At the conclusion of the afternoon, the husbands of the members came for the delicious dinner which was served at six o'clock. The tables were made attractive with groups of candles in crystal holders.

In celebrating their eighth wedding anniversary, Mr. and Mrs. Dalton Powell entertained at a prettily appointed dinner at their country home south of the city yesterday at noon when twelve guests were entertained. A bright bouquet of red and white carnations centered the table for the service of the turkey course dinner. The host and hostess received several pretty anniversary gifts.

Fifteen girls of the Always Present class surprised Mrs. Parker Willey, formerly Miss Leila Wilson, with a miscellaneous shower yesterday at the home of the Misses Velvia and Vonnice Phillips. Later in the evening the boys, who had attended a supper at the Christian church, joined them and the evening was spent in playing games and dainty refreshments were served.

Mr. and Mrs. Joe Clark were the host and hostess for a pitch-in dinner yesterday noon at their home in North Perkins street. The guests were Mr. and Mrs. Al Williamson and family, Mr. and Mrs. Charles Brooks, Mr. and Mrs. John Stiers and family, Mr. and Mrs. Charles Caldwell and family and Miss Mary Williams.

Mrs. Donald Smith was the hostess for the regular meeting of the Pirate Bridge club at her home in North Harrison street yesterday afternoon. At the close of the afternoon the hostess served a one course luncheon to the eight members of the club.

Prof. William E. Jenkins will give a lecture in the library at the Court house on Monday evening of next week before the members of the Shakespeare Club and their invited friends. The subject for the lecture will be "Charles Dickens."

An important meeting of the Wo-

man's Council will be held in the director's room of the Rushville National Bank on Monday evening of next week.

Miss Henrietta Coleman entertained at dinner last evening the Misses Nora and Mary Sleeth and Miss Charlotte Sleeth of New York City.

Will Start Night Bandage Classes

For Benefit of Persons Who Can Not Work for Red Cross in Day Time Classes Will be Held Every Wednesday Evening in Commissioners' Room at Court House

In response to a number of requests, a surgical dressing class will be started in the evenings for the benefit of those who cannot come to the classes during the day time. The first meeting will be held in the commissioners room at the court house on Wednesday evening of next week starting at 7 o'clock. It is hoped that a large number will take part in this work.

Another shipment of surgical dressings was sent out yesterday including 2937 dressings. The supply has been made since the big shipment was made previous to Christmas. The work on these bandages has been done by a comparatively small number of women. More are urged to aid in the work. The classes meet every afternoon in the commissioners room at the court house and women are urged to help if they can only do so for a little time. The country women who are in town are asked also to drop in to the classes and aid an hour or so. No need of the armies is greater than that for surgical dressings and Rush county women are urged to "do their bit" in this way as they have in many others.

ASKS POWER TO
OPERATE ROADSPresident Wilson Before Joint Ses-
sion of Congress Outlining
Steps Necessary

TO PROTECT RAILROAD STOCK

Also Requests Measures to Safe-
guard Shippers and Travelers
—Guaranteed Income

(By United Press.)

Washington, Jan. 4.—President Wilson today called upon Congress to give him full and unreserved power to conduct the federal operation of the country's railroads. Before a joint session of the house and senate, the president outlined the steps necessary to success to Director General McAdoo, administrator of the roads. He explained the action was necessary to secure the complete mobilization of the whole resources of America by as rapid and effective means as can be found.

"Private interest," he said, "must for the present give way to public necessity." The president asked necessary means for protecting the interest of railroad stock; measures to protect and to safeguard shippers and travelers; compensation based on the average net railroad income of three years ending June 30, 1917.

He added that "it is probably too much to expect that even under the unified railroad administration, sufficient economy can be effected to make it possible to add to their equipment and extend their operative facilities as much as the present extraordinary demands will render desirable without resorting to the national treasury for funds," but he asked for no unnecessary appropriations, stating that Director General McAdoo will advise with the proper committee on this point.

The president thought it wise to state as much to quiet any possible unrest which might result from the sweeping action of the government.

"It is of the utmost consequence to the government itself," he said, "that all be stabilized and co-ordinated with the financial operation of the government. No borrowing should run athwart the borrowing of the federal treasury and no fundamental industrial values should be impaired."

"Ten or eleven billion dollars invested for securities by many thousands of small investors as well as financial institutions at all times constitute the vital part of the structure of credit and by which the solidity of its structure may be maintained."

Immediately, representatives of the commerce committee introduced a resolution to carry out the president's recommendations.

NEW CASE OF DIPHTHERIA

Layonne Lucas, Daughter of John
Lucas, Is Sick

Another case of diphtheria has developed. It is that of Layonne Lucas, daughter of Mr. and Mrs. John Lucas, northwest of the city. The report on the culture of her throat was received last night and the home was immediately put in quarantine. Mrs. Lucas is also ill, and although it is possible that her sickness is not diphtheria, her culture has been sent to Indianapolis for examination. Aside from these cases, the physicians believe the disease is entirely wiped out.

No Dealers Get Fuel, But Weather
Moderates Somewhat

Rushville was still coaleless today. No dealers received any coal today, but the weather man was not conspiring so badly to keep the cold wave in vogue. The weather was moderating more today than it has for some time, the mercury going up to twenty-six degrees above zero this afternoon, which is the highest mark reached for several days. Still warmer weather is predicted for tonight and tomorrow, with a possibility of snow. The low mark on the government thermometer last night was ten above zero and at eight o'clock the mercury had risen to fourteen above.

CUSTOM TO HONOR POET

Phoenix Lodge, No. 62, Free and Accepted Masons will commemorate the 159th anniversary of the birth of Robert Burns, the great Scotch poet and Mason, with appropriate exercises at the stated meeting to be held in the Masonic Temple on Tuesday night, January 8th.

John Rutledge, a past master of the local lodge, has been secured to address the lodge on the life of the poet. Mr. Rutledge was born in Ayr, Scotland, also the birthplace of Burns, and is thus familiar with many of the historical places mentioned in the poems and other writings of this renowned poet.

It has long been the established custom for Masonic lodges to pay tribute to the memory of the Scotch bard on the anniversary of his birth and the local lodge is expecting a large attendance of its members on this occasion.

FIRE BREAKS OUT

on Hoboken Waterfront When
Discovered in Plant

MUNITIONS ARE ENDANGERED

(By United Press.)

Hoboken, N. J., Jan. 3.—Fire that broke out in the Gatti-McQuade plant here early today destroyed property amounting to a million dollars in the ware houses. The plants making munitions for the U. S. including the Remington Iron Company were endangered.

Hoboken, N. J., January 4.—Fire which threatened part of the waterfront which is within government control broke out today. The fire was discovered in a six-story building occupied by the Gatti-McQuade Company, mill supplies manufacturers, in the barred zone. That structure appeared to be doomed.

All the fire apparatus in Hoboken was called out. A munitions factory was near.

United States soldiers were placed on guard around the area. The burning building occupied nearly a block. Wind carried the sparks as far as the water's edge where munitions ships are tied up.

Two hours after the fire started the flames continued to make headway. They had spread to a number of other structures, and civilians were called on to aid the firemen. More details of soldiers were summoned. Owing to the cold weather the water pressure was poor.

Fourteen more registrants have been called for physical examination by the county army selection board to appear before Dr. W. S. Coleman, physician member of the board next Tuesday.

The net result of the examination of nineteen registrants last Monday was four men ready for induction into the army. The others were either rejected, appealed their cases to the medical advisory board, or were sent to the advisory board by Dr. Coleman for confirmation of his decision in regard to their physical fitness.

Fifty-four more were classified by the board yesterday, counting the six who were placed in class one and their arrest ordered for failure to return their questionnaires. The three others who were ordered to be placed under arrest yesterday had previously been placed in class one by the board.

At the same time these three were put in class one. Edward S. Combs was dealt with in the same way because he had not abided by the draft regulation providing questionnaires shall be returned in seven days after they are received. He got in communication with the board, however, returned his questionnaire filled out and explained the delay. His questionnaire, however, did not change his original classification.

Counted in the registrants classified yesterday was Lewis Lytle of Chicago, son of Mr. and Mrs. T. W. Lytle of this city, who registered here. He was examined last week while home for the holidays, by permission of the board, which has authority to allow physical unfitness so that his classification in class one will not stand.

Up to this morning 493 cases had been acted on by the board. Of this number 141 have been placed in class one. Fifty-four were placed in class one yesterday, being placed in class one.

CONGREGATIONS TO
WRITE TO WILSONVote at Week-of-Prayer Services to
Urge His Support of Prohibition
Measure

TO SHOW VALUE AS WAR MOVE

The Rev. J. T. Aikin Delivers Ser-
mon Thursday Night—Closing
Meeting at U. P. Church

A unanimous vote was voiced by the congregation at the week-of-prayer service held at the Christian church last evening favoring sending a letter to President Wilson urging him to use his influence for the prohibition of the manufacture of beer and wine and commendeering the manufacture of whiskey.

The arguments of conservation were presented in the communication read from the Anti-Saloon league, citing the amount of food, fuel, by manufacturing, transportation and man power that could be conserved by prohibiting the manufacture of liquors. The Rev. D. Ira Lambert as president of the ministerial association and the Rev. C. J. Bunnell as secretary will sign their names to the letter telling of the action of the congregations of the city. The communication came to the ministerial association to be voted on, but the members of the association put it before the meeting, thinking it would have more effect.

The Rev. John T. Aikin of the United Presbyterian church delivered the address last evening, giving an interesting presentation of the facts learned from Paul's letter to the Ephesians; the Rev. D. Ira Lambert presided over the meeting; the Rev. C. S. Black read the scripture reference; the Rev. C. J. Bunnell led in prayer; Capt. Dove of the Volunteers of America was present at the meeting and led in prayer. He will make a short talk at this evening's service which will be held at the United Presbyterian church. The Rev. C. S. Black of the St. Paul's M. E. church will preach this evening, when the last service of the week's series will be held. Last night the crowd was the best of any of the meetings held during the year.

After reading Paul's prayer for the people of Ephesus, the Rev. Mr. Aikin commented on the incidents prior to the time of the prayer, speaking as follows: "Paul loved the people of Ephesus. Here we are given the story of his farewell visit. He went on this journey then to Rome as a prisoner and his heart went out to the Christians at Ephesus. This prayer was offered for their spiritual enrichment. Paul thinks of the saints as one great family, some of the members of which are in heaven and some on earth. This was not a chance prayer but it was Paul's business and purpose to pray for the people at Ephesus. How well it would be for us to make it our purpose and business to pray as Paul did and to pray for ourselves and the church."

"There are three centers for the petition," the speaker continued, "first the appeals to the Holy Ghost, to the Son, and then to the Father. He appeals to the Holy Ghost to grant the power of the spirit in the hearts of the believers at Ephesus. He prays that they may be filled with this power and strength. Then, too, he petitions to the Son that the Christ may dwell in the hearts of the people by faith. As in the parable of the vine and the branches, so he prays that the life of Christ may be interwoven in their lives. The third petition is that in all the fullness of God their hearts may be filled with His power and strength."

Up to this morning 493 cases had been acted on by the board. Of this number 141 have been placed in class one. Fifty-four were placed in class one yesterday, being placed in class one.

The suit of Theodore Sampson et al. against Charles H. Newsom for quiet title and possession has been dismissed by the plaintiff and the costs paid.

A. F. STEWART GOES
INTO ARMY Y. M. C. A.Gives up Position as Head of Latin
Department at Monmouth Col-
lege to Enlist in War Work

FORMER PRINCIPAL HERE

Prof. A. F. Stewart, former principal of the local high school, will probably go to France in the near future in the Y. M. C. A. service. Prof. Stewart has been examined and accepted for the service by the Chicago Y. M. C. A. office and recommended to the New York office. Although he has not received his appointment from the latter place, it is said that the recommendations from the Chicago branch are never turned down so it is very probable that he will be accepted.

Prof. Stewart has resigned his position in Monmouth College at Monmouth, Ill., where he has been head of the Latin department for some time and has had a very successful career as a college professor. Although he is not sure as to where he will be sent, he believes, and the Chicago authorities also thought, that he would be sent to France. If he is not assigned to France, he will work in the army camps in this country. Prof. Stewart made a short visit in this city several days ago.

USED THE MAILS TO
FLEECE INVENTORSLawrence Bundy of Knightstown Is
Held in Indianapolis on Federal
Indictment

SUCCESSFUL SCHEME IS USED

Lawrence Bundy, of Knightstown, owner of a hand printing press, is in the Marion county jail in Indianapolis awaiting arraignment on a federal indictment accusing him of having used the mails to fleece inventors out of money.

Bundy, according to the indictment, was "the whole thing" of at least three companies by which he professed "we" get the inventor in direct touch with manufacturers, capitalists and prospective patent buyers.

His ideas of making money, it is alleged, were perhaps only exceeded by his use of language, for in writing inventors he used this language, according to a letter incorporated in the indictment against him:

"...of being skinned out of a big part of the selling price by some unprincipled shary."

Berlin (via London), Jan. 4.—Chancellor Hertling announced that Foreign Minister Kuehlmann had been instructed to reject Russian proposals for the transfer of peace negotiations to neutral soil.

Ukraine Gets Independence

Petrograd, Jan. 4.—Decision to acknowledge the independence of Ukraine was reached by the Bolshevik government today. The decision to acknowledge Ukrainian independence is a victory for the Cossack Rebels.

Amsterdam, Jan. 4.—Proceedings of the main Reichstag committee session at Berlin, reaching here today showed that the central party is supporting Germany's contention that Poland, Lithuania and Courland are separate states of Russia. The German government position as to the non-withdrawal of troops from sections of the country, is therefore presumably supported by the majority in the main committee. Support of the Russian contention that Germany withdraw troops can not be expressed because the military occupation was given by Socialists at the committee meeting.

London, Jan. 4.—The dramatic turn of events in Russia today will in all probability affect the allied cause more than the winning of a great battle. It may mean first of all recognition by the allies of the Russian Bolshevik government. Certainly it seems today probably to result in another joint effort by the allies to aid Russia in working out her own destiny.

Dispatches from Germany today said the central powers delegates of all returning to Brest-Litovsk, and coupled with this information was the report that more moderate terms were to be offered the Russians.

Just what these new concessions were to be was not intimated.

As observers saw the situation today the effect of the proof offered of Germany's annexation plans will be psychological, political and moral—not only in Russia and Germany but particularly in America and neutral nations.

The negotiations have proved that this effort at commercial penetration and economic domination is Germany's particular aim in Russia. The revelation must strengthen the cause of the allies more than a victory on the battlefield.

A Russia dominated by Germany dwarfed even the Berlin-to-Bagdad scheme in its badness.

Rushville Evidence For Rushville People

The statements of Rushville residents are surely more reliable than those of utter strangers. Home testimony is real proof. Public statements of Rushville people carry real weight. What a friend or neighbor says compels respect. The word of one whose home is far away invites your doubts. Here's a Rushville man's statement. And it's for Rushville people's benefit. Such evidence is convincing.

That's the end of proof that backs Doan's Kidney Pills. Samuel A. Brown, 206 Pearl St., says: "I had a severe attack of backache and it became worse every day. Finally, the trouble was so bad I could hardly raise my foot above the ground. When I stooped, I thought my back would break. I used Doan's Kidney Pills and was surprised at the prompt way in which they stopped the trouble. In a few days, I was free from pain." Price 60 c. at all dealers. HOPING TO WIN A PENNANT

Psi Iota Xi Who Sold Seals Await Report

Local boosters for the Red Cross seal campaign are in hopes of being awarded one of the pennants given out by the state Red Cross for having sold a great number of seals during the recent campaign. The report has been sent in and it will not doubt be some time before the honors are awarded as exact statistics will have to be completed. Money is still coming in from the sales. Yesterday another dollar was added to the fund by Fred Boxley.

Days Pickings

Jake Earhart was operated on at the Dr. Sexton Hospital yesterday.

Word has been received from Stacy Hinkle that he has been stationed at the university of Princeton for the ground training in the aviation corps. He left here several days ago after a visit with his parents, in response to the call he had received to report for training.

Frank Mauzy, well known and related here, suffered a stroke of paralysis yesterday evening at six o'clock at his home in Markleville and is not expected to live, according to word received by relatives today. Mrs. Mauzy was formerly Miss Mack Wilson of this city.

The opening of the road from the Denby Green place to the J. M. and L. railroad, northeast of the city marks the completion of the roads and streets which have been closed for several months for repair and pavement. The road was finished with concrete in connection with the eleventh street pavement, which has been finished for some time.

A son has been born to the wife of Arthur Weidner, southwest of the city. The baby has been named Woodrow Wilson.

The following officers were selected for Manila Bible school to serve during the year 1918: orphans' superintendent, Orin Gardner, assistant superintendent, Charles A. Phillips, secretary, Della Craig, assistant secretary, Albert Brown, treasurer, Orin Gardner, chairman, Marjorie Buehler, and Ruth Buehler, assistant.

Charles Hall, Annie Kuntz, and John Kuntz, of the Rushville Bible school, are in the city.

Couldn't Have Stuck It Out if It Hadn't Been for Tanlac

"I've been with the L. & N. here for seven years but I doubt if I could have stuck it out if it hadn't been for Tanlac," said James Nun, 15 Barker Avenue, Howell, Evansville, Ind. Mr. Nun is in charge of the pump house at Howell for the L. & N. Railroad Company.

"My health was getting pretty poor and at times I thought I'd have to lay off for good," Mr. Nun continued. "I didn't have much appetite at all and the little food I did eat distressed me. Gas used to form in my stomach and caused a pounding and thumping feeling."

"I was weak, too, and at times it got so that I was hardly able to shovel coal in the furnace."

"I slept very little. I'd just toss and roll about the bed most of the night."

"Everybody in town can see the change in me since I've been taking Tanlac. I've gained thirteen pounds and I'm still taking on flesh. I eat big meals now and enjoy them."

"I sleep good every night too. Even the rumbling of the trains in my neighborhood doesn't keep me from sleeping."

"I feel better than I have for twenty-five years and I think Tanlac is great as a health builder."

"If you are not feeling right, why don't you take Tanlac and improve your health? You can get Tanlac at all drug stores and mail order companies."

PLANS BEING MADE FOR THE DRY CONVENTION

Main Question to Come up at April Meeting is Concerning Joining New Organization

IN INDIANAPOLIS APRIL 12

(By United Press.)

Indianapolis, Ind., Jan. 4.—Arrangements are being made by dry leaders in Indiana for the state convention which will be held in this city on April 12, the date when the new prohibition law is scheduled to take effect. The convention will be under the direction of the state central committee of the prohibition party.

One of the main issues which will be considered at the meeting is whether or not the Indiana prohibitionists will ally themselves with the new national party which is now being formed. Sentiment is divided on the question but it is probable the convention will vote to go with the new organization.

The new party is made up of former socialists, prohibitionists, and some progressives. The socialists and progressive elements which are to line up with the new party, will hold meetings here this spring it was stated to form an organization.

Fatigue Nearly Overcomes Woman

"Bringing up several children in the right way and cares of home brought me to the verge of nervous prostration," says a well known woman, "Fearing that I might become ill and have to give up housework and the care of my little ones, created a nightmare that was over my affliction to one of my neighbors before me. I happened to mention and she advised me to procure some Phosphated Iron. A day or two later when I was feeling unusually miserable I sent my daughter to the drug store for a box of the capsules and after ten day's treatment I felt like a different person altogether. I sleep well at night, something I hadn't done in months before; my appetite is good and in fact what formerly seemed like mountains of work in my home is now more like play. An aunt of mine living over East has been taking Phosphated Iron with equally gratifying results."

For the Small Investor
The plan of the government to raise funds through the sale of war savings certificate stamps is one of the most commendable plans yet instituted. The sale of liberty bonds was and is necessarily circumscribed because these bonds could not be issued in small denominations sufficient to include the small savings of the millions who handle only small means. With the savings stamps, however, all can have a hand in financing their government. Millions who felt themselves unable to spare the amount of a bond can contribute through this channel. And the fact that every penny invested in these stamps is so much saved and invested at a profit, should inspire in the American people a spirit of thrift and saving that has heretofore been totally foreign to our natures. The response should be universal.

It is rumored that Ex-Czar Nicholas of Russia has escaped from Siberia and his whereabouts is unknown. Kerensky also has faded from view. Lenin and Trotsky will probably soon join the disappearing procession. Such is the destiny of dictators in Russia.

Certain gentlemen in Congress who during the last session were extremely pugnacious in asserting their right to oppose all war measures, now are as meek as lambs. Can it be they have heard a voice from home?

MAKES GREAT EFFORT WITH THE SUBMARINE

Possible That Enemy is Organizing Submarine Warfare on Scale Hitherto Unknown

TO FURTHER PEACE PROJECT

(By United Press.)
London, Jan. 4—Germany is making her greatest effort off the submarine war now in the hope of furthering her peace project. This official statement is permitted today in advance of the usual weekly official announcement as to the British shipment during the past week. It is possible that Germany has organized her submarine warfare on an offensive scale hitherto unknown. The results of her concentrated drive are not yet available but they may show indications of a temporary success. British authorities, however, are certain nothing more can be achieved than this temporary success.

CHARGES HOOVER USURPED HIS POWER

Chairman Reed Accused Federal Food Administrator of Using More Authority Than He Has

WILSON APPROVES HIS REPLY

Washington, Jan. 4.—Usurpation of authority under the food law in fixing wheat prices was charged against Herbert Hoover, federal food administrator, by Chairman Reed at the senate inquiry. "Did you not assure congress when the bill was pending that there was no authority to fix prices?" Chairman Reed asked. "Everything has been done with the full approval of the president," answered Hoover.

"I consider the bill gives me authority to do as I have in the wheat matter even if it does not say so. We face a big emergency."

Herbert Hoover answered criticisms of his food administration when he testified before the senate sugar probe committee. High food prices he attributed partly to greatly increased per capita gold circulation and sudden conversion of thousands of men from producers to consumers.

Senator Reed, chairman of the committee, and violent critic of Hoover, turned over cross-examination to Senator Lodge when the hearing began.

Lodge questioned Hoover regarding whether or not the food administrator's statement on the shortage of sugar did not cause the price to go higher. Hoover denied that it had this effect.

Practically Every Farmer in Rush County Will Have an Opportunity to Attend One

NEARLY ALL SET NEXT MONTH

Farmers in practically every locality in Rush county will have an opportunity to attend one or more of the farmer's institutes and corn shows to be held in the county during the next month. Dates have been set for the majority of the meetings but some of the plans are only in the making. One or more speakers from Purdue university will be at each of the institutes. The majority and perhaps all of them will be held in the schools of the localities.

January 10 is the date set for the first of the institutes, the one to be held in the Orange school house for the Orange township farmers. On the following day, January 11, an institute will be held at Moscow in the school building. The Milroy institute, the first for a number of years, will be held January 24 in the school and a week later, January 31 is the date set for institute at Carthage. The Mays meeting will be held February first. A meeting will be held in the near future to complete plans and set the date for the institute which will be held at New Salem in the near future and the Manilla farmers are also organizing plans for their institute, the date for which will be announced later.

With the Fingers! Says Corns Lift Out Without Any Pain

Sore corns, hard corns, soft corns or any kind of a corn can shortly be lifted right out with the fingers if you will apply directly upon the corn a few drops of freezone, says a Cincinnati authority.

It is claimed that at small cost, one can get a quarter of an ounce of freezone at any drug store, which is sufficient to rid one's feet of every corn or callus without pain or scarring or the danger of infection.

This new drug is an ether compound and while sticky, dries the moisture it is applied and does not irritate or even irritate the surrounding tissue.

This announcement will interest many women here, for it is said that the most distressing complaint of many women is "corns" on the feet.

A New Year's Greeting

This is the Season when our habit is to review the year that has just closed and to prepare for the New Year. Strange conditions have surrounded us the past year and we face a future unusual and uncertain. At such a time every person should plan that he may render the most effective service to his country.

Loyal citizens everywhere will be called upon by our country's need, and the response of our people should be certain and generous as it has been to every appeal in the past. Preparation now is essential. It is the part of prudence to save and conserve in every material way that we may do our share in aiding Rush County to discharge her full duty in this National Crisis. May the Year 1918 be rich in blessings for all our people, is the wish of

SEES FOUNDATION FOR A VICTORY

House Mission Holds Out no Hope of War Ending in Two Years, However

MUST PREPARE TO THAT END

Political Elements Might Bring Quicker Peace—Much Depends on Shipping

Washington, Jan. 4.—Members of the House mission believe the United States and the allies can make a firm foundation for victory in 1918.

But they hold out no hope, so far as the military situation now appears, that the war will actually end in two years. Political elements may bring a quicker ending, they said, but experts declare the nations must proceed with a two or three year fight in mind and make their plans for even a longer struggle.

Much thought must be given to ways and means for increasing the allied shipping, the mission declares.

There is talk of getting additional allied shipping through pooling arrangement though it is doubtful that much can come from this source until U-boat losses decrease and shipping facilities increase.

T. S. forces must be dispatched to Europe "with the least possible delay incident to training and equipment," Col. House's mission to the allied countries has recommended to Secretary of State Lansing.

Speed and co-ordination in ship building are primary requisites. While unity of effort—military, naval and economic—between the United States and the allies is essential, according to the two other recommendations.

The recommendations mean that all the allies will hereafter work together in unity, that the period of training and equipment of American forces will doubtless be shortened if this can be accomplished with the shipping and other resources at hand.

The recommendations for co-ordination in the shipping program emphasized more strongly than ever the urgent appeal of the allies for more ships, more speed in building them and less bickering and attention to details.

Summary of Col. House's report shows that the special war mission succeeded in its purpose of reaching a definite working plan for the prosecution of the war.

NEW DUTIES KEEP POSTOFFICE BUSY

Revenue Stamps, Increased Postage, Thrift Stamps and War Certificates all Take Time

TOOK IN \$1,500 YESTERDAY

Bert Conde Has Sold Most War Certificates to One Person—\$550 to Mrs. F. W. Ball

With the increased postage, the revenue stamps, the Thrift Stamps and War Certificates, business at the postoffice is "booming." Yesterday's receipts totalled about \$1,500, practically all of which was taken in in small amounts. The added lines of work are meaning new responsibilities and harder work for the postal authorities, mailing clerks and carriers, but they are sticking to it cheerfully knowing that Uncle Sam is prospering under the new rulings. Yesterday was one of the biggest days in the history of the local office and one of the busiest for the postoffice men.

To Bert Conde goes the credit for having made the biggest single sale of the war Certificates; that is to one person. Mrs. F. W. Ball has purchased \$550 worth of the stamps. The ruling is that not more than one hundred dollars worth may be purchased at any time so the stamps were bought at different times. At present, however, Mrs. Ball is holding more of the certificates than anyone in Rush county.

All of the carriers, city and rural route, carry the supplies for buying stamps and certificates and will sell them at any time. Any supply they do not have with them, they will order and supply later.

On February 9, the carrier-clerks examination will be given at the postoffice. The carriers and mailing clerks will take the examination. They are given when conditions make it necessary and cover the subjects of arithmetic, spelling, letter writing, and composition.

TEAM ENTERS GAME WITH A HANDICAP

Reed Out of Game and Several Others Sick with Boils to—Play at Shelbyville

FIFTEEN ROOTERS ARE GOING

The Rushville high school basketball team goes to meet Shelbyville tonight on the Shelbyville floor with a big handicap. Norman Reed, captain of the team, is out of the game having been sick with boils. Several members of the team have been infected with the boils at the same time that Reed was and as a result are not in the best of condition. Hubert Brown and Cyril Caron, although not in the best of health, are going to play on the team. The locals have practiced hard all week and will endeavor to win in spite of the fact that the odds are strong against them. About fifteen rooters will accompany the team to Shelbyville tonight.

HEARS OF NEICE'S DEATH

Mrs. Belle Cosund has received word of the death of her niece, Mrs. Blaine McCoy of Anderson, at the home of her mother, Mrs. Rose in Indianapolis. Mr. McCoy was well known here, having lived in Rushville at one time. Mrs. McCoy is survived by her husband and a young baby.

Never Put a Croupy Child to Bed Without Giving a Dose of

Foley's Honey and Tar

Mothers know it stops croup because it cuts the thick choking mucus, clears the throat of phlegm, stops the hoarse metallic cough, eases the child's breathing, then gives sleep.

Mrs. T. Neuse, Fairview, writes: "Foley's Honey and Tar cured my baby and saved me a great deal of worry. We know it's the best thing for croup, whooping cough, and all the other ailments of children."

Detroit Weatherproof Detachable Tops

They are designed to afford motoring comfort in Winter as well as Fall and Summer.

They transform your Ford in a few brief seconds to a warm absolutely storm-tight from windshield to rear window—brilliantly lighted limousine.

For the Ford driver who has considered winter driving a hardship rather than a pleasure, this patented all-weather top will be most acceptable as it eliminates instantly all his former hardships.

No bothersome side curtains to adjust in the biting cold or blinding snowstorms. The weatherproof top becomes an integral part of your Ford at a very reasonable cost.

Our Line of Defense

It is a moment of tense nerves—ready to slip out of the trench at the word of command—and at the enemy. Our men on the firing line are physically fit for military service because only about one man out of five was chosen to endure the hardships of this fearful war. But we must not be content with 20 per cent. In physical health of our American youth. We cannot afford to lose four men out of five because of physical unfitness. Such weaknesses can be cured. Many times the kidneys are to blame.

If the kidneys are clogged with toxic poisons you suffer from stiffness in the knees in the morning on arising, your joints seem "rusty," you may have rheumatic pains, pain in the back, stiff neck, headaches, sometimes swollen feet, or neuragic pains—all due to uric acid or toxic poisons stored in the blood and which should be swept out.

Then procure at your nearest drug store Anuric (double strength). The cost is 60 cents. This Anuric drives the uric acid out.
